Article 4.2.B. Qualifications for Membership

As a condition of Medical Staff membership, each Medical Staff member who has obtained Board Certification in his or her chosen specialty is required to remain Board Certified according to the rules of the applicable Board. Membership and privileges may be extended where there is evidence of diligent effort to obtain re-certification and where the practitioner remains eligible for re-certification without training. Medical Staff members whose membership was effective on or prior to June 28, 2006, are encouraged, but not required to meet the requirement for maintaining Board Certification after obtaining Board Certification under this subsection.
