

Real people. Real stories. The Memorial Experience.

SUZIE

**“If you have cancer,
Memorial is the only place
you want to be.”**

After 37-year-old Suzie discovered a lump in her breast, doctors diagnosed an aggressive cancer – and found it had already spread to her liver and ribs.

Suzie researched major cancer centers nationwide, and decided to trust her care to Memorial Breast Cancer Centers.

“I found Memorial was offering the same protocols and I could stay home during treatment,” Suzie says. “I couldn’t imagine going through it without my family.”

The highly skilled doctors at Memorial successfully treated Suzie with an innovative clinical trial, and the remarkable healthcare team supported her with its special brand of patient- and family-centered care.

Today – cancer-free, feeling absolutely terrific and enjoying life with her family – Suzie is grateful for Memorial’s lifesaving care.

Suzie says, “It’s nothing short of a miracle.”
